

How do you get a grip on field force productivity —

— so you can eliminate downtime, gain billable hours, improve cash flow, and keep customers satisfied?

Free **Field Force Mobilization Kit** will give you the answers.

Dear Professional,

"Competitive edge". That's what most organizations are looking for these days.

But sharpening that edge can be a challenge. Especially when you're dealing with inaccurate work orders, handwritten paperwork, incorrect inventory at job sites, unhappy customers, unbillable downtime and scores of other costly field force issues.

How do you turn it around?

That's easy. **Psion Teklogix** has the expertise, products, partners and service you need to optimize your field force operations.

To learn more, I invite you to complete and send the attached reply form for a **Free Field Force Mobilization Kit**. You may also email your request to mobilize@psionteklogix.com or call us at 1-800-322-3437.

Over the past three decades, we've delivered award-winning mobile computing solutions to more than 10,000 sites worldwide.

For operations like yours, we extend the functionality of your enterprise software to everywhere the work is done — even to the most remote and harsh locations.

Consider this snapshot:

Imagine if your field force could access, manage and capture key information – right at the point of activity – using powerful, handheld computing devices built tough for the job.

- Paperwork and other manual tasks would virtually disappear – boosting productivity.
- Payments would be processed immediately upon job completion – accelerating cash flow.
- Schedules and emergency dispatches would be planned with precision – so more gets done.
- Field technicians would answer questions and solve problems on the spot – boosting customer satisfaction.
- Work orders and other key data would flow seamlessly between your enterprise and the field force – so nothing slows things down.

And you made all this happen.

Sound like a competitive advantage?

If so, then I recommend that you request the free **Field Force Mobilization Kit** today. It's packed with information you need to get started, including detailed product literature, in-depth case studies, and a revealing Self-Assessment Guide.

Sincerely,

Richard Baully,
V.P. Business Development
Psion Teklogix

P.S. **How much will you save?** On average, our solutions can increase "jobs completed per day" by up to 20%; boost warranty sales by up to 30%, cut travel costs by up to 35%, and reduce required dispatchers by up to 60%.

Your numbers may vary, higher or lower. Why not find out? Simply request your free **Field Force Mobilization Kit** today.
